### **NCMIC FINANCE CORPORATION CHOOSES LEASETEAM'S ASPIRE™ FOR ITS END-TO-END SYSTEM CAPABILITIES**

**OMAHA, Neb.,** (October 29, 2013) – LeaseTeam, Inc., the premier solution provider in the equipment and finance marketplace, is pleased to announce that NCMIC Finance Corporation (NFC) has selected LeaseTeam's ASPIRE loan solution. ASPIRE is LeaseTeam's cutting edge end-to-end lease and loan management solution.

NFC is a diversified financial products company that provides commercial premium financing, equipment loans, credit cards and credit card processing to healthcare and other professional markets, as well as through specialty distribution channels. NFC is a member of NCMIC Group, Inc., a family of companies that offers a diversified portfolio of products to meet the insurance and financing needs of professionals, including chiropractors, naturopaths, allopathic physicians, dentists and attorneys.

According to Lisa Logan, senior operations officer at NFC, "NFC decided to switch to ASPIRE for the benefits/efficiencies that having a true, single system architecture can bring. ASPIRE's end-to-end loan processing capabilities allows us to have one all-encompassing view of our business and better transparency into our workflows. With a single system solution, we are also enjoying more efficient data entry, better reporting options and streamlined business processes."

Jeff Van Slyke, vice president of strategy and business development, added "Equipment finance transactions are no longer linear; therefore companies need a system that provides an all-encompassing view of their business with the efficiencies of single system processing. We believe by providing innovative technologies, we can help our customers transition from talking about front- and back-end processes into talking about a total transaction engagement lifecycle. We are honored NCMIC selected ASPIRE and we look forward to growing our business relationship."
