### **GROWTH MILESTONES COINCIDE WITH OPENING OF NEW LOCATION FOR LEASETEAM**

**OMAHA, Neb.**, (October 6, 2015) – LeaseTeam, Inc., the premier solution provider in the equipment finance marketplace, is pleased to announce that it has opened a new office location in the Kansas City, Kan., area.

The location will serve as the home office for Executive Vice President Jeff Van Slyke and a team of employees from various business units across the company. The opening of the new workspace comes alongside the exciting announcements of recent growth milestones achieved by LeaseTeam, including being named to *Inc.* magazine's 2015 Inc. 5000 list and the hiring of the company's 100<sup>th</sup> employee.

The distinguished 2015 Inc. 5000 list recognizes the fastest growing privately held companies in America and LeaseTeam's inclusion is a reflection of its 81% sales growth over a three-year period from 2011 to 2014. It also places the company among the 150 fastest growing companies from a regional area consisting of Iowa, Kansas, Missouri and Nebraska.

In addition to this remarkable growth in revenue, the company has also experienced rapid employee growth over the same three-year period, with over 40 percent of the company having been hired during this time (LeaseTeam recently eclipsed the 100-employee mark this year).

"It's an incredible time for LeaseTeam, both in terms of the work we are doing and the growing number of employees that are doing it," said Van Slyke. "Achieving the kind of growth necessary to make the Inc. 5000 is pretty uncommon when you've been in business for over 25 years, but it speaks volumes to our people, our solutions and our industry. As we looked to the future, opening up a Kansas City office allowed us to expand our footprint to access additional talent and resources."

#### **About LeaseTeam, Inc.**

LeaseTeam, Inc. is a market-leading software and business solutions company serving over 250 financial organizations throughout North America and the United Kingdom. With over 25 years of experience and expertise in the equipment finance and leasing industry, its innovative technologies continue to streamline lease and loan processing for users.
