LTI Technology Solutions Implements Two Strategic UK Customer Go-Lives

OMAHA, Neb., (December 16, 2020) – LTI Technology Solutions (LTI), a leading provider in asset finance software solutions, provided a company update for UK’s marketplace. LTI is excited to announce that it has implemented two strategic customer go-lives in December in the UK with its industry-leading cloud solution, ASPIRE. The customers’ range from specialising in soft assets and small-ticket transactions to a market-leading manufacturer supplier.

Coming off the fiscal year of 2020, entrenched in the coronavirus pandemic, ASPIRE’s market performance as a cloud solution was phenomenal. With ASPIRE in the LTICloud, companies can scale infrastructure use on demand. The cloud’s flexibility allows the newly go-live customers to maintain uptime whilst reducing resources and providing enhanced Management Information functionality required for investors and wholesale funders.

“As a mission-driven company, LTI focuses on growing our customers’ business and helping them run faster. What differentiates ASPIRE’s cloud-based platform from any other is our unified approach in bringing an ecosystem of workflow applications together that delivers seamless, modern, and integrated solutions. With ASPIRE, our customers will emerge on the other side of this pandemic crisis much stronger and much more resilient than their competitors will. Our investments in our products will continue to drive strong customer growth and our customers can expect additional efficiencies,” said Bryant Hunt, Senior Vice President and Chief Revenue Officer of LTI.

“We regard the relationships we have with every one of our outstanding customers as a top priority and that hasn’t changed since we opened our doors in 1989,” Hunt continued. “LTI is thrilled to form partnerships with these two UK customers, and we are excited to help them provide innovative solutions that will allow them to better serve their communities for the years to come.”

About LTI Technology Solutions

LTI Technology Solutions delivers cutting-edge software and services to asset finance companies throughout North America and the UK from our Omaha, NE, headquarters. Backed by three decades of experience and expertise, we harness the collective intellect of our diverse team to solve critical business problems for customers every day. Our highly configurable platform, ASPIRE, empowers users to effectively scale their business by streamlining the lease and loan transaction lifecycle. The ASPIRE cloud solution is the industry’s leading cloud-based platform and key delivery tool in our client success.
