LTI Technology Solutions Adds Heather Beshany as UK Support & Implementation Manager

April 13, 2021 – LTI Technology Solutions (LTI), a charter member in the industry, providing a lease and loan cloud platform to equipment and asset based finance companies, recently appointed Heather Beshany as UK Support & Implementation Manager. An accounting manager with broad lease accounting experience, Heather joins the company with a background in the servicing and manufacturing industries. In this critical role for the UK, she will be responsible for implementing new customers and providing day-to-day support for existing customers in ASPIRE.

Before joining LTI, Heather served as the Accounting Team Lead for Trans Lease, a transportation equipment leasing company. In her role as Accounting Team Lead, she was first exposed to LTI from a customer perspective. She was responsible as co-lead for implementing ASPIRE. She guided the team in identifying and executing efficiencies and process improvements and maximising the functionality of the ASPIRE platform.

Bryan Hunt, Senior Vice President and Chief Revenue Officer of LTI, stated, “We’re very excited to add Heather to our UK team. Her lease accounting experience coupled with her previous tremendous success with ASPIRE makes her a valuable asset for our organisation and customers.”

Hunt continued, “Having been a customer of LTI, Heather can help our customers through their issues. She has a solid understanding of what they are going through and can effectively relay those issues to LTI’s products and support teams. Heather has the organisational knowledge, resources, and expertise for being extremely effective in ensuring our customers’ success.”

About LTI Technology Solutions

LTI Technology Solutions delivers a full lifecycle leasing and loan finance platform to equipment and asset based finance companies, captives, small ticket, middle market, and independent banks throughout the U.S., UK, and Canada from our Omaha, NE, headquarters. Backed by comprehensive and flexible interfaces, our powerful technology solutions allow for improved efficiencies and decisioning. Our highly configurable platform, ASPIRE, empowers our customers to scale their business by streamlining the transaction lifecycle.
