LTI Technology Solutions Co-Founder Randy Haug Honored with 2021 ELFA Advocacy Award

May 18, 2021 – LTI Technology Solutions (LTI), a charter member in the industry, providing a lease and loan cloud platform to equipment and asset-based finance companies, is proud to announce that Randy Haug has been awarded the 2021 Equipment Leasing and Finance Association (ELFA) Advocacy Award. Randy is the Executive Vice President, Vice Chairman, and Co-Founder for LTI. The association will present the award at ELFA Capitol Connections virtually on May 19, 2021.

The Advocacy Award is one of ELFA's highest levels of recognition. Award winners exemplify extraordinary contributions to advance the association's programs. They play an outstanding leadership role representing ELFA in promoting the importance of advocacy on behalf of the equipment leasing and finance industry.

Randy co-founded LTI Technology Solutions in 1989 after purchasing LeasePlus (L+), a back-end lease and loan portfolio management system. He is widely considered a thought leader and uses his consultative problem-solving skills to improve the lives of those at LTI as well as those in the industry he collaborates with. Randy has been active in many aspects of ELFA over the years, including the ELFA Advocacy Advisory Committee and as an industry speaker and panelist for many educational events within the association.

Randy Haug, Executive Vice President, Vice Chairman, and Co-Founder of LTI, expressed, "I am genuinely humbled and honored to be named along with many incredible industry peers who have received this award before me. Actively volunteering and advocating for issues that are important to sustain and propel our industry forward is something I strongly believe in. It inspires me to see ELFA members advocating on Capitol Hill each year. They educate and make a compelling case to elected officials on important public policy issues. These ELFA legislative initiatives focus on areas of capital spending in business, commerce, and government programs. They are an important part of improving the economic engine of the U.S. economy."

Haug continued, "Being active and advocating for this great industry that we are all fortunate to work and make our living in has always been something I enjoy being a part of. The ELFA has trusted and experienced resources in its leadership. When the ELFA and ELFA voluntary members collaborate, it creates a powerful message to our elected government officials on both the federal and state levels. Thank you for honoring me with this wonderful award."

About the ELFA Advocacy Award

The David H. Fenig Distinguished Service in Advocacy Award is named for ELFA's former Vice President of Federal Government Relations, David H. Fenig, who served as an accomplished and tireless advocate on behalf of the equipment leasing and finance industry from 2004-2011.

About LTI Technology Solutions

LTI Technology Solutions delivers a full lifecycle leasing and loan finance platform to equipment and asset-based finance companies, captives, small ticket, middle market, and independent banks throughout the U.S., UK, and Canada from our Omaha, NE, headquarters. Backed by comprehensive and flexible interfaces, our powerful technology solutions allow for improved efficiencies and decisioning. Our highly configurable platform, ASPIRE, empowers our customers to scale their business by streamlining the transaction lifecycle.
