LTI Technology Solutions' Danie Langer Honored in Monitor Daily's Top 50 Women in Equipment Finance

OMAHA, Neb., (December 13, 2022) – LTI Technology Solutions (LTI), a charter member in the industry, providing a lease and loan cloud platform to equipment and asset-based finance companies, is proud to announce that Danie Langer is a recipient of this year's "Top 50 Women in Equipment Finance" Award from the Monitor Daily.

Danie Langer is someone who leads by example with the skills she has obtained over the 7 years in the Equipment Finance space plus another 9 years in the development space. Going to school for and starting her professional career as a programmer she covered all aspects of the development lifecycle. Moving to LTI as a Business Analyst, she worked across many projects and with many customers growing her knowledge of the ASPIRE product and most importantly the Equipment Finance industry.

Most notably, she has taken on the role of ASPIRE Product Manager where she enjoys working with the existing customer base to ensure the enhancements and improvements being considered meet the needs of the masses. She also enjoys building upon that knowledge with the unique ways each user of the system completes the common tasks for the contract lifecycles. In addition to the role of product management, Danie has also taken on the role of Business Analyst manager. By sharing the knowledge and skills she has developed over the years with the next set of BAs within LTI she is paving the way for new SMEs both within the company and the industry. Her goal for each day is to do the best job she can for both the company she works for as well as the customers it serves, doing her best to make someone else's job a little easier with a small enhancement to the software or a caring smile on a call.

Outside of the office, Danie is a mother to two lively young boys, enjoys cooking and baking with them and being outdoors. She and her husband are also small business co-owners to three gyms, a personal training company and a supplement line.

Tara Aasand, VP of Relationship Management at LTI said, "Danie's knowledge of our industry, customer base and their application of our technology is something that continues to provide next level experiences! She is an incredibly talented woman, who time and time again adds tremendous value both internally and for external customers!"

About LTI Technology Solutions

LTI Technology Solutions delivers a full lifecycle leasing and loan finance platform to equipment and asset-based finance companies, captives, small ticket, middle market, and independent banks throughout the U.S., UK, and Canada from our Omaha, NE, headquarters. Backed by comprehensive and flexible interfaces, our powerful technology solutions allow for improved efficiencies and decisioning.
