**LTI Technology Solutions Donate over \$4,000 to Completely KIDS and a Local School**

**OMAHA, Neb., (Dec 6, 2022)** – LTI Technology Solutions (LTI), a charter member in the industry, providing a lease and loan cloud platform to equipment and asset-based finance companies, is happy to announce they have donated over \$4,000 to local elementary school and non-profit Completely KIDS.

Completely KIDS educates and empowers kids and families to create a safe, healthy, successful and connected community. Completely KIDS serves 2,000 children ages 4-17, (and by extension, their families) with a depth of critical services after school and all summer long. They partner with Omaha Public Schools, Archdiocese of Omaha Catholic Schools and several community-based organizations, including homeless shelters to provide support for a variety of needed programs.

Every year, LTI picks a local organization to give back to. This year, we picked non-profit Completely KIDS and a local elementary school. Employees could either donate money or buy items for a family and students. After all was said and done, LTI employees raised over \$1,200 in donations. LTI matched that number, making the total donation of over \$4,000.

Jeff Van Slyke, CEO and President of LTI said, "Here at LTI, we are always looking for new ways to give back and are always looking for different opportunities. We reach out to our employees and ask for their input on where we should help out when we are doing events like this. Completely KIDS and the local elementary school were brought to our attention and I could not think of two better organizations to support. This time of year is hard for some families and LTI always steps up to make someone's holidays that much better."

**About LTI Technology Solutions**

LTI Technology Solutions delivers a full lifecycle leasing and loan finance platform to equipment and asset-based finance companies, captives, small ticket, middle market, and independent banks throughout the U.S., UK, and Canada from our Omaha, NE, headquarters. Backed by comprehensive and flexible interfaces, our powerful technology solutions allow for improved efficiencies and decisioning. Our highly configurable platform, ASPIRE, empowers our customers to scale their business by streamlining the transaction lifecycle.
