LTI Technology Solutions and AFPA Trust Jointly Raise Money for Wings for Life

Feb 23, 2023 – LTI Technology Solutions (LTI), a leading provider in asset finance software solutions, is pleased to announce that they have donated together with AFPA Trust (the Asset Finance industries charitable network) the sum of £2,900 to the spinal cord research charity Wings for Life.

The funds were raised at a recent Leadership event hosted by LTI at the Royal Albert Hall.

Philip White, Patron for Wings for Life and Director at FinTech Financial Partners Limited commented, “Having spent all of my career within commercial financial services, the support I have received from peers, former colleagues and partners such as LTI has been overwhelming. A Spinal-cord injury is a life changing injury with devastating affects beyond just that you can see. The incredible work of organisations like *Wings for Life* is only made possible with the support of others and the tireless efforts that are made. The donation from LTI is part of a wider engagement with the industry and is gratefully received. Today, we now have belief and not just hope, together we will find a cure for paralysis.”

Robert Taylor, UK Country Manager for LTI Technology Solutions, said, “LTI supporting Wings for Life together with AFPA Trust is a great example of our industry coming together to support spinal cord injury research. Events like this support Wings for Life’s ultimate agenda, to find a cure within our lifetime for those with debilitating spinal cord injuries and we are proud to help where we can.”

About Wings for Life United Kingdom

Wings for Life is a not for profit, internationally recognised foundation for spinal cord research. We use donations to support promising research projects and clinical studies worldwide to heal the injured spinal cord. Our mission is to find a cure for spinal cord injuries. Because science agrees: injured nerve cells are capable of regeneration. Support us in achieving our goal. 100% of donations go to research.
