LTI Technology Solutions' Donates over \$6,500 to Local Youth Emergency Services & the Love Life Now Foundation

OMAHA, Neb., (Dec 14, 2023) – LTI Technology Solutions (LTI), providers of lease and loan cloud technology to equipment and asset finance companies, is happy to announce they have donated over \$6,500 to local Youth Emergency Services & the Love Life Now Foundation. Every year, LTI picks a few organization to give back to. This year, LTI picked YES and LLN. Employees could either donate money or buy specific items that were requested. After all was said and done, LTI employees raised over \$3,300 in donations. LTI being the amazing company they are didn't hesitate to match that number making the total donation of over \$6,500.

YES provides housing and support to youth experiencing instability, crisis, and homelessness. As a member of the local Continuum of Care, they partner with other local agencies to address homelessness in the local community. They exist specifically to help youth and young adults break the cycle of homelessness by creating goals, establishing stability, and achieving self-sufficiency.

The Love Life Now Foundation (LLN) is a global awareness and education organization that supports survivors of domestic violence through year-round initiatives and direct assistance to domestic violence programs. All donations this holiday season for LLN are being matched up to the first \$5,000 by Dedicated Financial GBC.

Jeff Van Slyke, CEO and President of LTI said, "At LTI, we are always looking for new ways to give back and are always looking for different opportunities. We reach out to our employees ask for their input on where we should help out when we are doing events like this. YES and LLN were brought to our attention and I could not think of two better organizations to help out. This time of year is hard for some individuals and LTI always steps up to make someone's holidays that much better."

About LTI Technology Solutions

LTI Technology Solutions is a global customer-centric, cloud-native, full lifecycle leasing and loan finance platform. We support equipment and asset finance companies, captives, small ticket, middle market, and independent banks throughout the U.S., UK, and Canada from our Omaha, NE, headquarters. Our highly configurable platform, ASPIRE, empowers our customers to scale their business by streamlining the transaction lifecycle.
