**Travis Carroll Promoted to Vice President Information Technology**

**April 10, 2024** – LTI Technology Solutions (LTI), a charter member in the equipment finance industry, proudly announces the promotion of Travis Carroll to the position of Vice President Information Technology.

In this elevated role, Travis assumes responsibility for maintaining oversight of critical IT functions, while also fostering cohesion across the organization to ensure a unified approach to internal systems administration and configuration, software licensing and compliance, technology acquisition, systems monitoring, and data loss prevention.

“Travis joined LTI in 2020 bringing a wealth of experience from the financial services sector with expertise in managing data center operations, cloud platforms, network services, security, and compliance programs,” remarked Phil Rieck, LTI’s SVP/Chief Technology Officer. “Travis’ tenure has been marked by significant accomplishments, including the development of new product offerings, expansion of disaster recovery options, worked closely with sales and account management in answering customer questions and addressing special needs, and overhauled and detailed the financial tracking and budgeting of one of our biggest SaaS expenses,” continued Rieck. “In addition to his operational achievements, Travis played a pivotal role in leading our SOC II Type 2 compliance and audit processes – passing without exception – and formalized our security and compliance policies and controls.

Commenting on his promotion, Travis Carroll shared, “working at LTI has been a highlight of my career and I am honored to have been given the opportunity to work at such a great company that values its employees and clients alike. We have a fantastic team here that comes to work every day with focus, energy, and integrity ready to work collaboratively and drive innovation. I am looking forward to working with more of my LTI teammates in my new role and being able to make contributions across the organization.”

**About LTI Technology Solutions**

Celebrating its 35th year of continuous growth in 2024, LTI Technology Solutions delivers a full lifecycle leasing and loan finance platform to equipment finance companies, captives, small ticket, middle market and independent banks throughout the US, UK and Canada from their Omaha, NE headquarters. Backed by comprehensive and integrated interfaces, their powerful technology solutions allow for improved efficiencies and decisioning. ASPIRE, a highly configurable platform, empowers clients to scale their business by streamlining the transaction lifecycle.
