## **LTI Technology Solutions Announces 2026 Annual User Conference | June 8-10 in Omaha**

[OMAHA, NE, February 17, 2026] – [LTI Technology Solutions \(LTI\)](#), a leader in equipment finance software for more than 35 years, today announced its 2026 Annual LTI User Conference, taking place June 8–10, 2026 in Omaha, Nebraska. Designed for equipment finance executives, operations and compliance leaders, and technology teams, the conference brings the LTI customer community and strategic partners together for two days of practical learning, product insight, and collaboration.

This year’s theme—**ALL IN**—reflects what top-performing equipment finance organizations are prioritizing right now: tighter organizational discipline, faster throughput, stronger visibility across the lifecycle, and systems that create efficiency in their operation and support growth without adding risk. The conference is built to help teams get more measurable value from [ASPIRE](#), align on what’s next, and leave with ideas they can implement immediately.

“Modern equipment finance leaders are balancing growth, customer expectations, and compliance pressure at the same time as driving for efficiency, ” said [Jeff Van Slyke](#), President and CEO at [LTI Technology Solutions](#). “The User Conference is where our customers come to collaborate, network, compare approaches, sharpen execution, and get clear on how [ASPIRE](#) can help them create operational efficiency, move faster, and drive growth, without sacrificing control.”

“The User Conference is designed for the people doing the real work of running and evolving their operations” said [Jen Martin](#), SVP and Chief Product Officer at [LTI Technology Solutions](#). “Our focus is on efficiency and solving real-world business problems—how servicing operations can scale as companies grow. We will spend time examining the obstacles our customers face and share how those challenges are being addressed from a product standpoint. Attendees can expect honest conversations, practical insight, and a clear view into where the platform is going.”

**What to expect at the 2026 LTI User Conference**

The 2026 agenda is structured to support both strategic planning and hands-on execution across the equipment finance lifecycle, including:

- Deep dives and Interactive sessions to help teams optimize workflows and improve ROI.
- Executive panels and thought leadership discussions on market trends, growth strategies, and operational challenges.
- Product previews and roadmap visibility featuring upcoming enhancements and future development focus.
- Peer-to-peer networking with operators across independents, banks, captives, and vendors, plus direct access to LTI leadership, product experts, and customer support specialists.

### **Why sponsor and partners should participate**

The LTI User Conference convenes senior decision-makers and hands-on operators, all attendees who influence platform strategy, transformation initiatives, and vendor ecosystems. Sponsors will have the opportunity to:

- Build relationships with equipment finance leaders actively investing in automation, compliance, and scalable operations.
- Showcase complementary solutions and integrations that extend [ASPIRE](#) value.
- Join a high-intent community focused on performance, not just attendance.

Top-performing organizations across the equipment finance industry choose LTI as their ecosystem of choice, including 40% of the [Monitor 100](#), 54% of the [Independents 30](#), 35% of the [Vendor 40](#), and 38% of the [Bank 50](#).

### **Registration and hotel details**

Early bird registration opens February 17, 2026. Customers are encouraged to reserve tickets and book hotel accommodations at the [Omaha Marriott Downtown at the Capitol District](#) as capacity is limited. For any questions, or for assistance with registration, customers are encouraged to contact their Account Executive.

For partners interested in sponsorship opportunities, contact us at: [kdargy@ltsolutions.com](mailto:kdargy@ltsolutions.com).

### **About LTI Technology Solutions**

For more than 35 years, [LTI Technology Solutions](#) has been a trusted partner delivering full lifecycle lease and loan finance solutions for equipment finance companies, captives, independents, and banks across the U.S., UK, and Canada. Headquartered in Omaha, NE, LTI empowers clients with the [ASPIRE](#) platform, a highly configurable system designed to streamline the transaction lifecycle, enhance compliance, and accelerate growth at scale.

Backed by comprehensive interfaces and flexible architecture, [ASPIRE](#) enables organizations to digitally transform operations, optimize decision-making, and increase efficiency across every stage of the asset lifecycle.

-

With a proven legacy of innovation and customer trust, [LTI Technology Solutions](#) continues to lead the equipment finance industry through its commitment to Precision, Performance, and Partnership.
