### **LTI Technology Solutions Named Best Company in Community Impact Category by Monitor**

[OMAHA, NE, March 3, 2026] – [LTI Technology Solutions \(LTI\)](#), a leading global provider of lease and loan origination and servicing software for the equipment and asset finance industry has been named a Best Company in the Community Impact Category by [Monitor](#) as part of its [2026 Best Companies Awards](#).

This prestigious award recognizes organizations that go beyond business performance to create measurable, meaningful impact in their communities while empowering employees to give back and embed purpose into their corporate culture.

For LTI, community is not an initiative. It is a foundational principle. “At LTI, we believe technology enables progress but people create impact. Community is not separate from our strategy; it strengthens it,” said [Randy Haug](#), EVP/Vice-Chairman, Co-Founder, [LTI Technology Solutions](#). “We believe long-term success in equipment finance requires stewardship, accountability, and a culture that translates purpose into action. This recognition affirms what we have long believed: when organizations align purpose with performance, the result is lasting value for customers, communities, and the industry as a whole.”

LTI’s commitment to community impact reflects the same disciplined, long-term thinking that has defined its leadership in the equipment finance industry. Its community initiatives include company-wide support of [Dignity-Closet](#), benefiting nearly 400 local children; partnership with the [Gary Sinise Foundation \(GSF\)](#) to support veterans and their families; and organizing blood drives and community supply drives to address immediate local needs. These efforts are powered not by mandate, but by a shared conviction.

For more than 35 years, LTI has partnered with banks, captives, and independent finance

companies to modernize operations, enhance reporting accuracy, and scale performance through its ASPIRE platform. The [Community Impact](#) recognition reflects the company's broader commitment to leadership, culture, and responsible growth within the equipment finance industry.

### **About Monitor**

[Monitor](#) is a leading independent trade publication serving the equipment and asset finance industry. For decades, Monitor has delivered in-depth market intelligence, executive insights, sector analysis, and industry news to finance professionals across banks, captives, independent finance companies, and service providers.

The annual [Monitor Best Companies Awards](#) recognize organizations that demonstrate excellence across key performance and leadership dimensions including innovation, operational strength, workplace culture, and community engagement. The Community Impact category specifically honors companies that empower employees to give back, embed purpose into corporate strategy, and create measurable impact beyond core business operations.

Through its editorial platform, awards programs, and industry research, Monitor provides a forum for thought leadership and recognizes organizations shaping the future of equipment and asset finance.
