LeaseTeam and eOriginal Present Electronic Transaction Management at National Equipment Finance Association (NEFA) Summit

OMAHA, Neb., (March 25, 2014) – LeaseTeam, Inc., the premier solution provider in the equipment and finance marketplace, and eOriginal, Inc., a leader in electronic transaction management services, are pleased to announce their joint speaking session at this year's NEFA Summit in Scottsdale, Arizona, April 2-4. NEFA is the premier educational and networking event for professionals in the commercial equipment and finance industry, as well as for the funding sources, professional services and other suppliers who want to reach them.

Pat Frodyma, technical writer at LeaseTeam, and John Jacobs, director of business development at eOriginal, will be jointly presenting in a session titled: Electronic Transaction Management: An Overview of the eSignature Process.

LeaseTeam now offers eOriginal's electronic transaction capabilities within ASPIRE, their complete lease and loan management solution. Both Frodyma and Jacobs will bring their extensive experience on the benefits of fully electronic transactions and the unique compliance that surrounds a successful implementation.

"Adding eSignature and eTransaction capabilities to ASPIRE provides our users a streamlined option for executing documents quickly, with the bonus of ongoing secure document storage. This can be quite a differentiator for developing relationships with customers and vendors, making it easier to do business," said Frodyma.

The joint LeaseTeam/eOriginal session will help attendees:

- Learn the ins and outs of electronic signature and transaction solutions.
- Understand electronic chattel lifecycle management.
- Gain a strong understanding of the post-signature process and the importance of secure document management.
- Get best practices for electronically collateralizing, selling, securitizing and transferring electronic assets.

Jacobs added, "We are excited to present at this year's Summit. We believe that educating leasing and finance organizations about the importance of secure electronic transaction management will simplify loan origination processes and help securitize contracts faster and more effectively."
